

Together we can change lives

The Harding Miller Education Foundation is making a difference to high potential Australian girls who are currently under-resourced.

Would you like a rewarding experience and to be involved in changing the trajectory of these girls' future?

- Scholars get the tools they need to reach their potential including a high-quality laptop, educational resources, and the support required to learn on a level playing field.
- 100% of donations go directly to the scholarship recipients with all administration costs covered by the Founders. The scholarship supports them in their public high school, in their homes with their families and in the communities. It is worth \$20,000 over four years.
- We work with Australian universities and businesses to provide scholars with an enrichment program that creates a pathway to university and fulfilling careers.
- We guide them through their educational journey and ensure they make the most of all the scholarship elements.
